Faces of the Internet

أوجه الإنترنت

Email:

Email lets you exchange messages with people all over the world. Optional attached files can include text, pictures and even audio and animation.

Which email program is the best? ما هو أفضل برنامج بريد إلكتروني

Outlook Express is a popular program, but many users use web-based email accounts such as Hotmail. إن آوت لوك إكسبريس هو البرنامج الرائج لكن العديد من المستخدمين يستعملون
حسابات بريد على الشبكة الإلكترونية مثل هوت ميل

The web :

The web consists of billions of documents living on web servers that use the HTTP (hypertext transfer protocol) protocol. You navigate through the web using a program called a web browser, which lets you search, view and print web pages.

Chat and instant messaging (IM) :

Chat and instant messaging technologies allow you to have a real-time conversation online, by typing messages at the keyboard.

FTP

FTP or, file transfer protocol, is used to transfer files over a TCP/IP (transmission control protocol / internet protocol) network. Nowadays this feature is built into web browsers. You can download programs, games and music files from a remote computer to your hard drive.

Telnet

Telnet (teletype network) is a protocol and a program used to log onto remote computer system.

Newsgroups

Newsgroups are the public discussion areas which make up a system called Usenet (user network)
